

Fertility Equipment

MERLINVET UK

Bespoke Veterinary Wholesaler

MERLINVET UK

Bespoke Veterinary Wholesaler

At MerlinVet UK, we offer a customised pharmaceutical service, importing pharmaceuticals and farm fertility equipment to UK vets. We stock an extensive range of Special Import Products that other wholesalers are unable to source, providing solutions to vets in times of stock shortages. We can guide you through the entire Special Import process to ensure you get the products you need.

Our fertility equipment range includes the Pulsator V, the most advanced electronic bull ejaculator available, and the Ram E-JAC, a battery-operated self-contained electro-ejaculator designed for collecting semen from small ruminants - designed, developed, and delivered by MerlinVet.

RAM E-JAC

Introducing the **MERLINVET UK** E-JAC Ram Probe

The MerlinVet E-JAC is a battery-operated self-contained electro-ejaculator designed for collecting semen from small ruminants. Designed for use by veterinary surgeons, the E-JAC includes:

- ✓ rechargeable battery with USB charger
- ✓ ergonomic design, suitable for all hand sizes
- ✓ high-low setting allowing versatility when collecting semen from different breeds, ages, and species
- ✓ lightweight with rubberised handle
- ✓ precision control on/off button & power on light
- ✓ operates for around 500 rams on a single charge
- ✓ protective carrier case & one year warranty
- ✓ specialist electrode technology

lane
manufacturing
inc

The Ram E-JAC has been designed & developed by MerlinVet with Lane Manufacturing. Lane has been setting the standard in manufacturing large animal reproductive equipment and providing innovative solutions in breeding soundness since 1972. MerlinVet UK is the exclusive UK distributor for Lane Manufacturing.

Introducing the

PULSATOR V

Bull Fertility Equipment Manufactured by Lane Manufacturing
& Distributed by MerlinVet

The Pulsator V is the most
advanced electronic bull
ejaculator available

Collect bull semen in a safe
and controlled environment

COMPLETE UNIT CONTAINS

- 1 x Pulsator V Control Box
- 1 x Bull Probe (60mm upright weighted with 2 electrodes)
- 1 x Battery Charger
- 2 x Probe Cords
- 1 x Semen Collection Handle
- 100 x Disposable Director Cones
- 100 x Disposable Collection Vials
- 1 x Scrotal Tape
- 1 x Pulsator V User Guide
- 1 x Carry Case

PULSATOR V

- Features state of the art electronics
- Stimuli counter
- Smoother signal to the bull
- Multiple, pre-programmed programs designed for specific breeds
- Improved battery and charging
- Lightweight & easy to move around
- No need to be on constant charge
- Smooth and precise power output
- Loop function holds power at a set level, aids collection and penile extension
- Battery charge indicator

WEIGHTED BULL PROBE

The newest in bull probe technology, the two-electrode probe delivers a smoother signal to the bull and is a more durable construction than the older three-electrode probe. All two-electrode probes are weighted.

- Gentle & efficient
- Shielding of the electrodes reduces back arching, hind limb extension & vocalisation
- Nose now has additional weight, helps the probe sit securely in the “sweet spot” area
- Easier to clean, enhanced biosecurity & improved water resistance
- Comes in 2 sizes: 60mm or 75mm

SLIDE WARMERS & INCUBATORS

It is essential to keep semen samples warm at all times. Ensure you're able to do so with our range of slide warmers & incubators.

Bench Slide Warmer (Small with Cover)

Thermal heater ensures even heat transfer. Anodized black surface provides contrast. LED temperature display.

- Length: 12"
- Width: 9"
- Height: 4.5"
- Wattage: 300W
- Capacity: Approx. 23 slides
- Max. Temp.: 70°C

Cultura Incubator

Cultura incubator supplied with one multitrack for the incubation of up to 18 dipslides, one shelf and one thermometer.

- Temperature range: 25 to 45°C
- Temperature uniformity: $\pm 1.0^{\circ}\text{C}$
- Capacity: 4L
